

A New Project By...

IMPACT Strategies is proud to have another year of ZERO lost time accidents on our job sites. In fact, since our inception in 2002 we have never had a recordable job site accident. Our conscious commitment to safety has provided a safe working environment for our personnel while allowing our insurance costs to be well below the industry average. Our safety committee maintains a daily commitment to safe work sites. The safety committee meets on a monthly basis to discuss safe industry practices, safe rules implementation for a more secure job site, and upcoming training opportunities for our field staff to further their education on job safety. IMPACT also works directly with a national safety consultant to review industry best practices on keeping our workers safe because **WE BELIEVE SAFETY IMPACTS ALL!**
